PROFESSIONAL SUMMARY

MCA (Computer Applications) student with strong interest in Data Analytics and Software Development. Skilled in Python, SQL, Power BI, HTML, CSS, and Django with hands-on experience in developing dashboards, web applications, and AI-driven chatbot systems, AI Resume Analyzer & Job Recommendation System. Passionate about solving Problems using data analysis and modern software development technologies.

EDUCATION

Master of Computer Application (CA) RGPV University, Bhopal	Appearing (2024–2026)
Bachelor of Science (CS) DAVV University, Indore	(2021–2024)

TECHNICAL PROJECTS

BankLoan Analysis Dashboard

- Developed an interactive dashboard to analyze loan approval, rejection, and customer loan distribution.
- Performed data cleaning and transformation to prepare dataset for analysis.
- Created visualizations such as bar charts, pie charts, and KPI cards to represent loan trends.
- Implemented filters and slicers for dynamic data analysis.
- Generated insights to identify loan patterns and customer behavior.

Tools Used:Power BI

Online Food Ordering System

- Developed a web-based platform where users can browse menu items and place food orders online.
- Implemented user authentication and order management system using Django framework.
- Designed responsive frontend interface using HTML and CSS.
- Integrated database management to store customer orders and menu details.
- Ensured efficient backend processing for order handling and data retrieval.

Tools Used: Python, Django, HTML, CSS, SQL

AI Driven Chatbot

- Built an AI-powered chatbot capable of responding to user queries in real time.
- Integrated Gemini API to generate intelligent responses.
- Developed backend logic using Python and Django.
- Designed a simple web interface for chatbot interaction.
- Implemented dynamic response generation to improve user experience.

Tools Used: Python, Django, Gemini API, HTML, CSS

AI Resume Analyzer & Job Recommendation System

- Built AI Resume Analyzer with ATS scoring and job recommendations.
- Implemented skill matching and keyword analysis.
- Generated resume improvement suggestions.
- Designed dashboard with score visualization.

Tools Used: Python, Django, HTML, CSS

TECHNICAL SKILLS

Programming: Python,SQL	Data Analytics: Power BI,Excel,Data Visualization,Data Analysis
Web Development: HTML,CSS,Django	Tools: VS Code,GitHub,Power BI Desktop
Core Skills: Problem Solving,Dashboard Development,Web Application Development	
Libraries: Numpy,Pandas,Matplotlib	

CERTIFICATIONS

Python Programming : Universal Informatics, Indore, Madhya Pradesh	2025
Data Analytics : Skill Course (Power BI, Excel, SQL)	2026
