PROFESSIONAL SUMMARY

Highly motivated MCA student and backend developer with a strong computer science background and a deep passion for building intelligent, user-centric web applications and AI modules. Proficient in Python environments, full-stack frameworks, and automated parsing systems, eager to contribute technical acumen to an engineering team.

EDUCATION

Master of Computer Application (MCA)

Shri R.G.P Gujarati Professional Institute Indore, RGPV University (CGPA : 7.56) 2024 - 2026

Bachelor of Science (Computer Science)

Govt. College Sanawad, DAVV University (CGPA : 7.08) 2021 - 2024

TECHNICAL PROJECTS

AI Resume Analyzer & Job Recommendation System

- Built a responsive web application featuring automated ATS resume grading, skill profiling, and dynamic entity parsing.
- Implemented precise backend keyword matching pipelines and automated structural alignment tips for candidates.
- Tools Used:** Python, Django, HTML, CSS, SQLite database

AI Driven Chatbot

- Engineered a fully functional real-time conversational agent capable of managing dynamic workflows.
- Integrated Google's Gemini API endpoint architectures to handle complex context-dependent natural language generation.
- Tools Used:** Python, Django, Gemini API, HTML, CSS

Bank Loan Analysis Dashboard

- Developed a financial intelligence dashboard focused on tracking structural loan metadata, defaults, and applicant profiles.
- Executed end-to-end data transformation, outlier filtration, and multi-variable metric layouts.
- Tools Used:** Power BI Desktop, Microsoft Excel

TECHNICAL SKILLS

- Languages & Databases:** Python, Core SQL, SQLite
- Web Frameworks & Libraries:** Django, NumPy, Pandas, Matplotlib, Scikit-learn (Basic)
- Tools & Analytics:** Power BI, Excel, VS Code, Git/GitHub

CERTIFICATIONS

- **Python Programming Professional Certification** – Universal Informatics, Indore
- **Full-Stack Data Analytics Specialist Certification** – Skill Course (Power BI, Advanced Excel, SQL)
